CONDITION OF THE MARKETS

A Firmer Tone Developed in the Grain Markets, and Better Prices Ruled.

Feeble Effort of Scalpers to Raid the Market-Good Business and Higher Figures Shown in Corn and Oats.

MONEY, STOCKS AND BONDS.

A Day of Queer and Sudden Fluctuations-Big Four Recovers.

NEW YORK, Aug. 13.—Money on call was easy at 212@5 per cent., the last loan being made at 212, closing offered at 212@3. Prime mercantile paper, 434@612 per cent.

Sterling exchange dull but steady at \$4.8412 for sixty day bills and \$4.8714 for demand.

The total sales of stocks to-day were 196,-235 shares, including the following: Atchison, 11,625; Erie, 6,500; Louisville & Nashville, 5,330; Missouri Pacific, 5,100; Northwestern, 3,705; Northern Pacific 11,625; Northern Pacific preferred, 13,510; Oregon Transcontinental, 6,380; Pacific Mail, 4,725; Reading, 12,890; St. Paul, 16,010; Union Pacific, 9,175.

The stock market to-day was reactionary in its tendency, though this was met by continued good demand for the leading speculatives, which resulted in a feverish and irregular market with wide and sudden fluctuations in a few specialties, while the general list was traded in over a narrow range of values. The London figures, this morning, were again very much higher than our figures of last evening, but the traders were bent upon a reaction, and the opening was irregular, though generally higher, and the den fluctuations in a few specialties, regular, though generally higher, and th improvement in some of the list extended to 12 per cent. The pressure upon the list, however, forced off quotations in most cases to something below first prices, and the Chicago & East Illinois stocks were as conspicuous for their weakness to-day as conspicuous for their weakness to-day as they were yesterday for strength. The preferred set the pace, and after opening up slightly at 10734, it declined to 104, and closed at a slight rally. The decline was met by unexpected strength in the Northern Pacifics on rumors of a new scheme of a consolidated mortgage at a lower rate of interest to relieve the company of part of its interest charges. There was also considerable demand for Chicago Gas at rising prices, and the market became dull and steady toward noon. The attack was resumed, however, and the weakness in the grangers became most prominent, with St. Paul and Burlington & Quincy leading. Sugar Trust, however, Quincy leading. Sugar Trust, however, then indulged in some rapid and wide vibrations, dropping to 107, and quickly rising to 10938, the extreme prices of the day. This was kept up till the close, when it was near last evening's figure. The decision on the injunction was reserved, and the contest in the stock was very sharp. The C., C. & St. L. stocks were also in marked contrast to their course of vesterday, being trast to their course of yesterday, being generally strong, and the common showed a material gain at the end of the day. Lake Eric & Western preferred was weak. The last hour's trading was extremely dull, and little or no movement took place, the market finally closing fairly steady at something better than the lowest prices.

C., C., C. & St. L. common is up 13g, Chicago & East Illinois preferred is down 31g, the common 11g, and Lake Erie & Western preferred 11g.

ern preferred 11s. of the railroad bond market, and the sales of all issues aggregated only \$782,000. The movements throughout the day were small and uninteresting, though there was a firm to strong tone, and most of the important chances are advances this evening. Syracuse, Binghamton & New Yord firsts rose 1 to 132, Iowa Central first 2½ to 86, and Knoxville & Ohio firsts 3 to 112.

Government bonds were dull and steady.

Government bonds were dull and steady.

	were dull and steady.
	entirely neglected.

TRADING AT CHICAGO.

The Ups and Downs of the Market, with the

Range in Prices of Leading Articles. CHICAGO, Aug. 13.-Early influences were depressing in the wheat market today, and opening figures for futures were 14c under yesterday's closing. The inspection sheet showed fifty-six cars of wheat more than the estimate. Arrivals of spring are enlarging. Early cables were dull, with prices reported as tending downward for American wheat, and the scalping crowd here started in evidently with the intention of raiding the market. In this they were not successful, as prices only receded a small fraction below the opening quotations, when a stronger tone was developed, and under promiscuous and general, though scattering, buying, the market turned up, and the lost ground was fully recovered. During the last half of the session fluctuations were inconsequential, and closing figures were within 'se of yesterday's latest bids for December. Corn was fairly active and firmer, higher prices being established. The advance was due largely to the operations of a prominent local operator, whose purchases of September and May, especially the former, put prices up, offerings being only moderate. Reports of wet weather, the active cash demand and covering by local shorts also created a firm feeling. The market opened at about the closing of vesterday opened at about the closing of vesterday, was firm and gradually advanced 5sc, eased off 1s@ 14c, ruled firmer and closed 3s@ 12c higher than yesterday. A decidedly better feeling developed in oats, and a higher range of prices was recorded, the advance being 14@3sc, which was partially main-tained until the close. The improvement was due to smaller arrivals than expected.

was done in pork, and the feeling was unwere made at 5\alpha 7\bar{1}_2e advance, but a weaker feeling developed, and prices receded 27\bar{1}_2\alpha 30c. Near the close prices rallied 2\bar{1}_2\alpha 5c, and the market closed easy. Trading was quite active in the lard market, and prices ruled somewhat irregular. Early the market showed considerable strength under the impression that an Eastern syndicate controlled the product, and prices were well maintained, temporarily, with fair buying by shorts. Later the offerings were enlarged somewhat, and the feeling was easier, and prices receded .05\alpha .07\bar{1}_2c. Near the close the market was steadier, and prices rallied slightly. A brisk business was transacted in short ribs. The feeling was easier dursettled with prices irregular. Early sales in short ribs. The feeling was easier during the greater portion of the day, and prices declined 10@ 12loc, and closed

CHARLESTON, Aug. 13.-Turpentine firm at

Wool.

BOSTON, Aug. 13.—There has been a very moderate demand for wool, and prices are more or less in favor of buyers. To move large lines concessions would be granted by dealers, but for small lots previous prices are being obtained. Ohio and Pennsylvania fleeces have been very quiet with sales of X at 33 \$\pi\$34c; XX at 34 \$\pi\$35c, and No. 1 at 38c. Michigan X fleeces move slowly at \$22a. Combing and delains move slowly at 32c. Combing and delaine fleeces in moderate request, with No. 1 combing selling at 40c; unwashed combing at 28@30c; Ohio fine delaine at 36c, and Michigan fine delaine at 34 \$35c. Some choice Montana wool sells at 25 \$26c, but the principal sales of Territory wool are at 19 \$20c. Texas, California and Oregon wools are quiet but steady. In pulled wools there have been sales of super at 33 @39c, and extra at 25 @2Sc. Foreign wools of all kinds are firm under strong advices from abroad. NEW YORK, Aug. 13.—Wool steady and quiet; domestic fleece, 32 \$\varphi\$39c; pulled, 23 \$\varphi\$41c; Texas,

Cotton.

14 @ 28c.

Sheep—Receipts, 3,200; shipments, 1,400. The market was active and strong. Natives, \$424.75; Southwest mixed, \$3.25 @3.80. EAST LIBERTY, Aug. 13 .- Cattle-Receipts. 260; shipments, 360. Market about the same as vesterday's prices. No cattle shipped to New

was due to smaller arrivals than expected, estimates of lighter run to-morrow, and less to wet weather. Quite a business were for outside parties, but no class of buyers was on Philadelphias \$4.65@4.70; grassers, \$4.50@ 16@25c.

4.60. Four car-loads of hogs shipped to New York to-day. Sheep-Receipts, 1,600; shipments, 1,000. Market active, closing at yesterday's prices.

CINCINNATI, Aug. 13.—Cattle—Receipts, 600; shipments, 500. The market was less active. Sheep-Receipts, 3,500; shipments, 6,400. The market was firm. Lambs firm and in fair demand Hogs in fair demand. The market was strong. Common and light, \$3.75@4.75; packing and butchers, \$4.40@4.60. Recepts, 1,200; shipments,

BUFFALO, Aug. 13.— Cattle — Receipts, 1 car-load through and none for sale. Sheep and Lambs-Receipts, 9 car-loads through and 2 car-loads for sale. Market un-Hogs-Receipts, 1 car-load through and 4 car-loads for sale. Market steady and un-

INDIANAPOLIS MARKETS. Trade Improving, with Steady, Firm Prices Prevailing as a Rule.

INDIANAPOLIS, Aug. 13.

In the wholesale departments little complaint is heard of duliness in trade. In fact, it is better than usual in August. Then, the steadiness to prices enables merchants to know where they stand from day to day. The advancing tendency to the coffee market is still on, and sugars carry a very strong tone. In drugs there is a good deal of activity. The revision in prices today was more general than usual, and shows that the tendency in druggists' supplies is upward. The produce markets are moderately active; fruits of the season are abundant. The nutmeg melons are poor in quality, and, therefore, difficult to dispose of. When those of a nearer-home growth come on the market, the quality will doubtless improve, and with this the demand. Poultry is rather weak, on increasing arrivals. Eggs scarce and in good demand at quotations. Butter, if choice, is readily disposed of. Dry goods men had a number of buyers in to-day, and everything points to an active and early fall trade. The flour market is somewhat firmer in its tone, and for the best grades there is a slightly improved demand. Lower grades rule

GRAIN. Wheat - The Indianapolis Market Report places the receipts of to-day at 21,600 bushels. The receipts show a falling off to-day, owing to one of the roads being blocked, and therefore refusing to receive grain for Indianapolis. The blockade is now raised. Low grades are w but No. 2 red finds ready sale at quotations.

We quote new No. 2 red, 74½c; new No. 3 red, 69270c; rejected new, 63265c for poor up to 68269c for choice samples, the ruling figures being 65267c; new unmerchantable, 56259c, according to condition; August, 74c. cording to condition; August, 74c.

Corn—Receipts posted to-day, 6,000 bus; yesterday, 7,200 bushels. The offerings from the country were heavy yesterday, and to-day are fair. Prices are quoted off. We quote No. 1 white, 38 \$\alpha\$38\frac{1}{4}c; No. 2 white, 37\frac{1}{4}\alpha\$38c; No. 3 white, 36\frac{1}{2}c; if one color, 38c; No. 2 color, 37\frac{1}{2}\alpha\$37\frac{1}{4}c; No. 2 yellow, 36c; No. 3 yellow, 35\frac{1}{2}c; No. 2 mixed, 36\alpha\$36\frac{1}{2}c; No. 3 mixed, 35\frac{1}{2}\alpha\$36c; ear, 35\frac{1}{2}c.

Oats—Receipts posted to-day, 1,000 bus; yes-terday, 8,000 bus. The market is very heavy and dull. Old eats sell in a small way to local jobbers; new are very slow sale, shippers being

We quote No. 2 mixed, 19@1912c; new rejected mixed, 17c; new rejected white, 19c.

Bran—The market is dull. Shippers report it almost impossible to sell, except at buyers' figures, and those are anything but satisfactory. Shippers are bidding \$8@8.25 per ton for spot or August shipment. Local dealers are paying \$9. Hay and Straw—Receipts posted to-day, none; yesterday, none. Shipping demand small; local poor, on account of wagon deliveries from the country supplying the warket. Therethy have country supplying the market. Timothy hay, choice, \$11.50 per ton; old No. 1, \$11211.25; new No. 1, \$10210.25; No. 2 not wanted; prairie, No. 1, \$727.50; straw, \$5.

St. Louis, secretary. Texas—Dallas, Oct. 15 to 27, Claude A. Cour, Dallas, secretary. Tri-State Fair-Toledo, O., Sept. 9 to 13, John Farley, Toledo, secretary.

Breeding Cattle. Iowa State Register.

So far as the writer knows there is not an individual in the United States, or ever has been, who could be technically called a cattle-breeder. It is true, all farmers who raise cattle are breeders, but they are not what is meant when referring to "fine stock breeders." Of all the men in the United States who have made or lost fortunes in dealing in full-blood stock, no name stands out so as to be known nationhood, as an improver of any one of the various breeds of neat cattle. If they have attempted to select animals of superior parts or traits and mated them with other animals with different superior traits, so as to form a distinct family of superior merit, their names and achievements are unknown to the public. Consequently, there are no men in this country who have the least claim to the distinction of stock-breeder. And yet there are many deficiencies in all breeds which should be corrected and im-

The Jerseys come from an island of that name, which contains but a little more than a township of land, and yet that isl-and sends abroad 2,000 Jerseys every year, As a consequence they have to send all they paise—good, bad or indifferent. And the result is plainly visible in this country. There are a few grand milkers among the Jerseys, but far more are of the poorest and most worthiess class. And they are all sold here on the credit of the few good ones. It is time some one established a family by wise and careful selection and mating, so that the name "Jersey cow" would mean something. A man of the proper qualifica-tions could in time make a fortune and build up a name as imperishable as that of Bates, Booth or Cruickshank.

The Herefords and Galloways are hardy. standing good or poor treatment, and are superior beef cattle. But they are sadly lacking in one of the great essentials of a cow—milk. And in this country, with all its vicissitudes of depressions and booms in beef, butter, etc., no diversified farmer can obtain a cow which will be good for milk, butter or beef, as emergencies demand. Here is a grand field for scientific breed-

The Holstein is a large animal greatly admired for their beauty of form and uniform development of good beef. And it beats the world for deep milking, but of such poor quality as to give it no eminence as a milker.

Now, the example and the facts devel-oped by such breeders as Bates and Crnickshank show that any of these, as well as all other classes, can be bred out of all their deficiencies. The Jersey cow ought to be increased in size and improved in form, and so established in her qualities as a breed that two-thirds of all Jerseys will not be mere strippers in quantity. Make her uniform and reliable in this respect. The Hereford, a grand animal, should be infused with new blood, rich in milk, while it may not be decreased in quantity of good beef, nor the form of the animal dwarfed, or its hardiness as a rustler im-

There is a wide field for some American breeder to produce a common-purpose cow, bless the world with a perfect animal, and build for himself a monument more imperishable than brass or marble.

Colman's Rural World says that it is questionable if there ever was a time in the history of American agriculture when there existed a greater desire on the part of those engaged in that business to co-operate one with another, and to have every man work in harmony with every other man to promote and protect the interests

Tippecanoe-Lafayette, Sept. 2 to 6, Mortimer involved. Comb honey keeps best in a warm, dry room. The temperature should not go below sixty degrees, and a little warmer would be even better. Whiteness of the comb would be better preserved in a dark room. The honey will gather moisture when the temperature goes below sixty de-
